“We Serve” is the Lions Club motto and the Minden chapter embodies those words regularly. Founded in 1948, the local chapter has built a tradition of projects that serve the community in a number of ways.

“It’s a long standing service organization and the main objective that people associate with the Lions Club is eyesight,” member Sally Jurgensmier said.

The club collects old eyeglasses, assists in eye care, and hosts annual screenings at school. Through a validation process they even assist individuals in need to get eye appointments. While this project is one shared by all chapters in the national organization, the Minden Lions Club has several projects that focus locally.
